

Curriculum Vitae

Alan M. Steinman MD, MPH, FACPM
Rear Admiral, USPHS / USCG (RET)

Address: 4720 Cooper Point Rd, NW
Olympia, WA 98502
(253) 229-4088
email: asteinman@aol.com

Present Positions: *Consultant: Drowning, Hypothermia, and Water Survival
*Broadcast and print media consultant on water survival, hypothermia
*Medical Journal Reviewer
*Member, National Drowning Prevention Alliance
*Member, Executive Advisory Council, Mission: Readiness

Date of Birth: 7 February 1945

Education: Massachusetts Institute of Technology
Bachelor of Science, 1966.

Stanford University School of Medicine
Doctor of Medicine, 1971

Mayo Graduate School of Medicine
Post-Graduate Year I (medicine/surgery), 1972

U.S. Navy School of Aerospace Medicine
U.S. Navy Flight Surgeon, 1973

University of Washington
Occupational Medicine Residency 1984-1986
Master of Public Health, 1986

Professional Certification: Board Certified in Occupational Medicine, 1988
Fellow, American College of Preventive Medicine, 1989

Previous Positions: Member: Presidential Special Oversight Board for Department of
Defense Investigations of Gulf-War Chemical and Biological Incidents,
July, 1998 - January, 2001

Director of Health and Safety, U. S. Coast Guard
U. S. Coast Guard Headquarters
Washington, DC
August, 1993 to September, 1997

Chief, Wellness Branch
Office of Health and Safety
U.S. Coast Guard Headquarters
Washington, DC
February, 1991 to August, 1993

Chief, Medical Branch
Division of Commissioned Personnel
Office of the Surgeon General
U.S. Public Health Service
Rockville, MD
February, 1990 to February, 1991

Deputy Director of Medical Affairs
Office of Surgeon General
U.S. Public Health Service
September, 1989 to February, 1990

Chief, Clinical and Preventive Medicine
U.S. Coast Guard Headquarters
April, 1987 to September, 1990

Medical Officer and Flight Surgeon
USCG Support Center, Kodiak, AK
January-May, 1987

Medical advisor for search and rescue operations,
Search and Rescue Division, Office of Operations
USCG Headquarters
1982-1984

Chief of Special Medical Operations Branch
Operational Medical Division, Office of Health Services
USCG Headquarters
1978-1982.

Senior Medical Officer and Flight Surgeon
USCG Group Astoria, OR
1976-1978

Senior Medical Officer and Flight Surgeon
USCG Group Port Angeles, WA
1974-1976

Senior Medical Officer and Flight Surgeon
USCG Air Station, Cape Cod, MA
1973-1974

Senior Medical Officer
Support Center Elizabeth City, NC
July-September, 1972.

Professional
Licenses and
Certificates:

Commissioned Officer, USPHS, 1972 to 1997
State Medical Board of Washington, 1974 to present

Professional
Organizations:

American College of Preventive Medicine
American Occupational Medicine Association

Professional Achievements

2005-2023: Professional Affiliate, University of Manitoba Department of Kinesiology and Recreation Management, Winnipeg, Manitoba, Canada

2018-present: Consultant to RowSafeUSA.org on drowning, hypothermia and water survival.

2018: Consultant to U.S. Air Force (adviser to the Medical Director, Special Tactics Training) in creation of Air Standard ASM 4089, Ed 1 v1: Cold Water: Prediction of Survival Times.

2016, 2011, 2007, 2001, 1995, 1989: Co-authored the chapter on Immersion Hypothermia in the medical textbook Wilderness Medicine - Management of Wilderness and Environmental Emergencies, 2nd - 7th editions (see publication section).

2015: Consultant to U.S. Coast Guard and National Association of Boating Law Administrators on drowning, hypothermia, immersion in ice water and ice rescue at the 1st Biennial International Ice Rescue Operations & Training Meeting, Bay City, MI.

2013: Consultant to U.S. Coast Guard in revising the sea survival and hypothermia sections of the Rescue and Survival Systems Manual.

2012: Consultant to U.S. Coast Guard for development of a new International Post-Incident Survival Evaluation form and website to gather data on survival incidents in cold-water, warm-water, and land survival episodes, as well as for bridge jumpers and submerged automobile incidents.

1998-2012: Consultant to U.S. Department of Justice re hypothermia, drowning and cold-water immersion.

2010: Consultant to U.S. Marine Corps Mountain Warfare Training Center, Pickle Meadow, CA re hypothermia, and cold-water immersion.

2009-2010: Consultant to Popular Mechanics Magazine on issues of hypothermia and drowning.

2006: Consultant and participant, U.S. Coast Guard Workshop on Survivability of Distressed Mariners, USCG R&D Center, New London, CT.

2005: Consultant and participant in University of Alaska / U.S. Coast Guard / University of Manitoba video production on water survival and hypothermia.

2005: Consultant and participant in the Great Lakes Beach and Pier Safety Task Force / video production on water safety and hypothermia.

2003-2004: Served as advisor on hypothermia, near-drowning and water survival to the U.S. Public Health Service for publication of its medical text, Ship's Medicine Chest.

2003-2004: Co-investigator on a U.S. Coast Guard research project to evaluate the effect of head-cooling on mental status, cognitive impairment and core temperature during immersion in cold-water while wearing various types of flotation devices; University of Manitoba.

2002: Invited participant and panel moderator at the World Congress on Drowning, Amsterdam, Netherlands.

2002 – present: Provided medical consultations to CBS Television, Discovery Channel and National Geographic channel for issues relating to sea-survival, hypothermia and drowning.

2001-present: Scientific advisor on drowning, hypothermia and sea-survival to the U.S. Coast Guard for: 1) accident investigation; 2) revision of water survival and survival time sections of official Coast Guard publications; 3) cold-water survival training and research studies.

1998-2001: Served as the only medical member of a Presidential Board, chaired by Senator Warren Rudman (R-NH), overseeing the Department of Defense investigations into Gulf War Illnesses. Authored the medical sections of the Board's Final Report, presented to the Secretary of Defense in December, 2000.

2000: Served as technical consultant to the United States Coast Guard for the development of software to estimate cold-water survival time. The Coast Guard uses these survival time estimates in search and rescue operations. The survival time estimates are based in part on data from my human subject hypothermia research.

2000: Member of International Advisory Committee for Harvard University's IFISH Conference, Woods Hole, MA, October, 2000.

1999: Technical consultant for an article on sea-survival in National Geographic Adventure magazine, March/April 2000.

1999: Technical consultant for article on drowning resuscitation for Funworld Magazine, a publication written for owners, managers and life-guards at aquatic recreational parks.

1993-1997: Served as Director of Health and Safety (equivalent to the Surgeon General) of the United States Coast Guard; managed a comprehensive health care program for over 160,000 beneficiaries with a budget of over \$250,000,000. Served as Director of the Coast Guard's Safety and Environmental Health programs, which included serving as chief advisor to the Commandant of the Coast Guard on matters of sea survival, medical aspects of search and rescue, cold-weather protective clothing, and environmental medicine.

1991 to 1993: Designed and implemented a Coast Guard wellness program for all Coast Guard beneficiaries and employees, including the establishment of a wellness training program for Coast Guard counselors, publication of a weekly Wellness Bulletin, complete revision of the Coast Guard physical fitness programs for recruits and officer candidates, implementation of an aggressive anti-tobacco program, and revision of the menus for all Coast Guard dining facilities.

1986: Co-authored the section on special resuscitation situations (near-drowning, traumatic injury, electric shock, hypothermia) for the Standards and Guidelines for Cardiopulmonary Resuscitation (CPR) and Emergency Cardiac Care (ECC. This section served as part of the national CPR guidelines from 1986-1992 (see publications section).

1986: Designed and coordinated a realistic test of rescue capabilities following a simulated multi-victim vessel mishap in Puget Sound. This experiment involved City of Seattle and Coast Guard rescue resources to evaluate the response to a ferryboat disaster.

1986: Tested a prototype one-man liferaft in rough seas. The results of this study were used to accelerate the acquisition of this raft for both Coast Guard and Navy helicopter crewmen.

1984-1986: Developed criteria and procedures for human subject testing of protective clothing and flotation equipment in rough seas. All previous environmental testing of survival equipment had been conducted in laboratory tanks or in calm water.

1984-1986: Performed the only realistic, rough-sea tests, to date, of U.S. Coast Guard and U.S. Navy immersion protective clothing. These tests permitted a more accurate evaluation of garment performance and allowed a more accurate estimation of survival times for crewmen of aircraft or vessel mishaps in heavy seas. The results of this research led to revisions of the survival tables used by both the Coast Guard and the U.S. Air Force. This research won the 1989 Arnold D. Tuttle Award from the Aerospace Medical Association for "contributions toward the solution of a challenging problem in Aerospace Medicine."

1983-1984: Co-designed the anti-exposure, fire-retardant protective clothing used by Coast Guard helicopter crewmen in cold-weather operations.

1983: Performed the human-factors evaluation of the prototype Coast Guard 30-foot Surf Rescue Boat. This evaluation resulted in improvements in both the rescue capability of this vessel and in crew habitability.

1980-1983: Co-developed an underwater escape breathing device for use by Coast Guard helicopter pilots and crewmen trapped within capsized or submerged aircraft.

1979-1982: Designed and supervised the implementation of a servicewide emergency medical services system for Coast Guard search and rescue operations, including the establishment of the EMT training school, the development of standardized emergency medical equipment for vessel and aviation use, the implementation of a data collection system, and the establishment of a Coast Guard EMT Qualification code.

1976-1978: Co-designed an inhalation-rewarming device for treating hypothermic patients transported during Coast Guard rescue operations.

1977: Served as the physician member of a three-person team of Department of Health and Human Services advisors to improve emergency medical services in Egypt, including the on-site establishment of EMT training programs in Cairo and Alexandria.

Honors and Awards

Letter of Appreciation from President Clinton for distinguished service on the Presidential Oversight Board for Department of Defense Investigations on Gulf War illnesses, 2000.

U.S. Coast Guard Distinguished Service Medal, May, 1997 for "exceptionally meritorious and distinguished services in the duties of Coast Guard Director of Health and Safety."

U.S. Public Health Service Surgeon General's Medallion, July, 1997, for "exceptional service in providing medical and health care to the United States Coast Guard."

U.S. Armed Forces Legion of Merit, October, 1993, for "exceptional service in providing medical and health care to the United States Coast Guard."

U.S. Public Health Service Unit Commendation, July, 1992, for serving as one of the "few committed and dedicated physicians willing to [spend time] at the Uniformed Services University of Health Sciences interviewing medical school applicants for the University."

U.S. Public Health Service Unit Commendation, January 1992, for serving as Medical Faculty during the National Disaster Medical System-RCSU Summer Exercise.

U.S. Coast Guard Achievement Medal, March, 1991, for "superior performance of duty as a member of the Coast Guard's special Health Care Delivery Systems Study."

U.S. Coast Guard Meritorious Service Medal, 1990, for "outstanding history of service to the Coast Guard from July, 1972 to September, 1989."

Arnold D. Tuttle Award, 1989, from the Aerospace Medical Association: "Awarded for original research that has made annually the most significant contribution toward the solution of a challenging problem in Aerospace Medicine."

Arthur S. Flemming Award, 1981. "Awarded to the top ten young federal employees." In recognition of my contributions in operational medicine to the U.S. Armed Forces.

U.S. Public Health Service Commendation, 1978. For on-site technical assistance in establishing a system of emergency medical services in Cairo and Alexandria, Egypt.

U.S. Coast Guard Commendation Medals, 1975 and 1978. For advancements in the fields of hypothermia resuscitation and emergency medical services.

First prize in the annual A.E. Bennet competition for Research in Biological Psychiatry. 1969: "Epinephrine metabolism and formation in the mammalian brain."
